

Waterborne Pre-Cleaner

SWX360

Waterborne Pre-Cleaner

PPG One Choice™ brand Waterborne Pre-Cleaner is a waterbased cleaner for removing contaminants prior to undercoating or top coating. It is conveniently packaged ready for use or may be mixed with water at several ratios for different levels of VOC compliance.

Features

- Packaged ready for use
- Produces consistent results

Advantages

- Can be used with PPG or Nexa Autocolor systems.

Benefits

- Customer satisfaction

Required Products

- SWX360 Waterborne Pre-Cleaner

Compatible Products

- SWX360 Waterborne Pre-Cleaner is for use with PPG and Nexa Autocolor brand products.

SWX360 is packaged ready for use but may also be mixed with water to comply with specific VOC requirements

Mix Ratio

- Packaged ready for use:
- Mixed at a 2:1 ratio, 2 parts SWX360 to 1 part water
- Mixed at a 1:2 ratio, 1 part SWX360 to 2 parts water

VOC

- 0.58 lbs/gal / 70 gm/l
- 0.39 lbs/gal / 47 gm/l
- 0.20 lbs/gal / 24 gm/l

Directions For Use

- Apply a generous amount of SWX360 with a clean cloth or by use of a hand held spray bottle.
- Initial application floats contaminants to the surface where the second wipe with a clean, dry cloth will remove the contaminants.
- For maximum results, wipe dry with clean cloth while the surface is still wet, to eliminate smearing of contaminants.

Technical Data:

Color:	Clear
Packaged VOC	0.58 lbs/gal (70 g/L)
Density:	8.18 lbs/gal
Flashpoint (PMCC):	102°F (39°C)

Important:

Before opening the packages, be sure you understand the warning messages on the labels of all components, since the mixture may have the hazards of all its parts. Improper use may result in a hazardous condition. Wear eye and skin protection. Observe all applicable precautions.
